To Whom It May Concern:

Ali Reynolds of Cargill Interiors, Inc. was of inestimable help to me during the renovation of my home during 2004 and 2005. Not only did she design my new kitchen, including the cabinets, but she also assisted in the selection of the contractor for the whole renovation and acted as a project manager part of the time. During the selection of appliances, countertop material, plumbing fixtures, etc. I found her knowledgeable and helpful. She was easy to work with and very professional at all times, and I recommend her highly.

Sincerely,

*Hope Jones*
