January 2015

I am a Project Coordinator and also an Architectural Interior Plan Designer. I oversee the project and act as the coordinator for all parties involved in a project. I organize and create a center for information and all parties are then able to contact one person. My job is to make sure that everyone is on the same page and to get all the design specifications and coordinate with all parties to make sure every detail is accounted for and will work with the actual project. I start working at the beginning of a building project and coordinate the planning side and execution. I do architectural design work to facilitate and make sure the project is as beautiful as possible. My specialty has been cabinetry-design from kitchens to detailed libraries, custom closets, bathrooms, paneling and all millwork. I was made for my job as I love details and have tremendous organizational skills.

Here is a breakdown of my experiences.

I am the owner of

Cargill Interiors

2002 – Present (13 years)

Architectural Interior Plan Designer and Project Coordinator and Manager.

Clive Christian Palm Beach

1999 – 2002 (3 years) Palm Beach Gardens, Florida
